

NWANKPA IKECHUKWU GOODNEWS

IT Support Engineer | System Administrator | Network Operations Center (NOC) Engineer

 **Mafoluku, Oshodi, Lagos State, Nigeria**

 **07063415629 | 08083155981**

 [**goodnews.nwankpa@gmail.com**](mailto:goodnews.nwankpa@gmail.com) | [**goodnews.nwankpa@hotmail.com**](mailto:goodnews.nwankpa@hotmail.com)

PROFESSIONAL SUMMARY

Experienced IT Support Engineer, System Administrator, and Network Operations Center (NOC) Engineer with over 10 years of experience providing technical support, network monitoring, systems administration, desktop support, and IT infrastructure maintenance. Skilled in diagnosing and resolving hardware, software, and network issues while ensuring high system availability and excellent customer service.

Extensive experience in solar plant monitoring, remote fault diagnosis, incident management, power systems monitoring, and coordinating field engineers to maintain uninterrupted operations across distributed energy and telecommunications infrastructure. Strong analytical, troubleshooting, and communication skills with a commitment to delivering reliable and efficient IT solutions.

CORE COMPETENCIES

- **IT Helpdesk & Technical Support**
 - **System Administration**
 - **Network Operations Centre (NOC)**
 - **Solar Plant Monitoring**
 - **Remote Infrastructure Monitoring**
 - **Incident & Alarm Management**
 - **Desktop Support**
 - **Hardware Installation & Maintenance**
 - **Network Administration**
 - **Operating System Installation & Configuration**
 - **Hardware & Software Troubleshooting**
 - **Customer & Stakeholder Management**
 - **Technical Documentation & Reporting**
 - **Website Maintenance**
 - **Database Administration**
-

TECHNICAL SKILLS

Operating Systems

- **Microsoft Windows Installation, Configuration & Administration**

Networking

- **Network Monitoring**
- **LAN/WAN Support**
- **Incident Escalation**
- **Remote Troubleshooting**
- **Network Administration**

Solar & Power Monitoring

- **Remote Solar PV Plant Monitoring**
- **Inverter Performance Monitoring**
- **Energy Production Monitoring**
- **Alarm Analysis & Fault Escalation**
- **Performance Reporting**
- **Field Engineer Coordination**
- **Power Infrastructure Monitoring**

Hardware Support

- **Computer Assembly & Upgrades**

- **Hardware Diagnostics**
- **Preventive Maintenance**
- **Desktop Support**
- **Peripheral Installation & Configuration**

Web & Software Development

- **HTML**
- **CSS**
- **JavaScript**
- **PHP**
- **CakePHP**

Database

- **MySQL Database Administration**

Productivity Tools

- **Microsoft Word**
- **Microsoft Excel**
- **Microsoft PowerPoint**
- **Microsoft Access**

PROFESSIONAL EXPERIENCE

Special Protection Service (SPS)

Network Operations Center (NOC) Engineer

September 2015 – Present

Key Responsibilities

- **Monitor network infrastructure and critical systems using Central Management Systems (CMS).**
- **Monitor and manage solar photovoltaic (PV) plants, ensuring optimal system performance and energy generation.**
- **Continuously monitor inverter performance, site availability, and power generation across multiple locations.**
- **Identify, analyze, and escalate alarms related to communication failures, inverter faults, grid outages, and equipment failures.**
- **Coordinate with Field Service Engineers for onsite diagnostics, preventive maintenance, and corrective actions.**
- **Perform remote troubleshooting to minimize downtime and restore services quickly.**
- **Monitor commercial power, generator, battery, and renewable energy systems.**
- **Track daily energy yield and investigate abnormal system performance.**
- **Prepare operational reports, fault logs, and daily monitoring summaries.**
- **Maintain accurate incident documentation and service records.**
- **Manage customer support tickets from creation through closure.**
- **Reconcile service tickets with customers to ensure timely resolution.**
- **Maintain excellent relationships with customers, vendors, and technical teams.**
- **Ensure compliance with operational procedures and service level agreements (SLAs).**

Key Achievements

- **Successfully monitored multiple critical solar and telecommunications infrastructure sites with high system availability.**
- **Reduced incident response time through proactive alarm monitoring and timely escalation.**
- **Supported field engineers in resolving network and power system faults, minimizing operational downtime.**
- **Maintained accurate operational reporting for management and customers.**

IT Support Executive | Network Administrator | Front-End Web Developer
June 2010 – August 2015

Key Responsibilities

- Installed and configured Windows operating systems and business applications.
- Diagnosed and resolved desktop hardware and software issues.
- Performed computer assembly, upgrades, and preventive maintenance.
- Managed user accounts, permissions, and shared network resources.
- Installed printers, scanners, and other peripheral devices.
- Administered organizational network infrastructure.
- Designed and maintained company websites.
- Developed responsive landing pages using HTML and CSS.
- Tested websites for browser compatibility and responsiveness.
- Delivered technical support and user training.

Key Achievements

- Improved system reliability through proactive maintenance.
- Reduced downtime by resolving technical issues efficiently.
- Successfully maintained the company's IT infrastructure and websites.

EDUCATION

Master of Science (M.Sc.) – Information Technology

National Open University of Nigeria

Bachelor of Technology (B.Tech.) – Computer Science & Mathematics

Federal University of Technology, Minna, Niger State

PROFESSIONAL CERTIFICATIONS

- Cisco Certified Network Associate (CCNA)
- CompTIA A+ Fundamentals & Essentials

TECHNICAL PROJECTS

Solar Monitoring & Network Operations

- Monitored utility-scale solar PV sites using centralized monitoring platforms.
- Investigated inverter alarms, communication failures, low energy yield, and grid outages.
- Coordinated field engineers for onsite maintenance and fault resolution.
- Produced operational and performance reports to support business decisions.

IT Infrastructure Support

- Installed, configured, and maintained desktop computers and operating systems.
- Performed preventive maintenance and hardware upgrades.
- Managed software deployment and end-user technical support.

Website Development

- Developed and maintained responsive websites using HTML, CSS, JavaScript, PHP, and CakePHP.

EDUCATION & TRAINING

- M.Sc. Information Technology
- B.Tech. Computer Science & Mathematics
- Cisco Certified Network Associate (CCNA)
- CompTIA A+ Fundamentals & Essentials

PROFESSIONAL STRENGTHS

- Excellent troubleshooting and analytical skills
- Strong problem-solving ability
- Incident and alarm management

- **Customer-focused technical support**
 - **Team collaboration and communication**
 - **Time management**
 - **Documentation and reporting**
 - **Ability to work under pressure**
 - **Fast learner with strong attention to detail**
-

PERSONAL INFORMATION

Nationality: Nigerian

State of Origin: Abia State

Local Government Area: Ikwuano

Languages: English, Igbo, Yoruba
